Product Information

The Slow Drying Flux Remover is a powerful, high-purity flux remover and degreaser.

This naturally derived product provides excellent cleaning power on fluxes, pastes, inks, oils and grease. Use on PCBs, FR-4, components, connectors, cables, and mechanical assemblies. It is an effective way to remove many circuit board conformal coatings and it effectively dissolves many adhesives used to apply pressure sensitive labels.

As a slow-drying cleaning fluid, a small amount can effectively clean a large area of contamination, minimizing solvent usage and waste. Test before use on plastic and avoid long-term skin contact.

Dispense directly from the can or use with the MicroCare TriggerGrip cleaning system for faster, safer, and more economical process of cleaning printed circuit boards at the work bench.

AVAILABILITY: Stocked by MicroCare distributors world-wide. Contact MicroCare for a distributor near you. For more information contact MicroCare directly or visit www.MicroCare.com.
